4. INTELLECTUAL PROPERTY AND SAFETY STANDARDS REGARDING EXHIBITS

- 4.1. Products exhibited at trade fairs (including, but not limited to, machinery and equipment) should have conformity assessment certificates as required by law, including in particular those relative to safety standards.
If a product presented at a trade fair has not undergone conformity assessment as required by law, relevant information must be visible at a stand where any such product is displayed.
- 4.2. It is recommended that the exhibitors / co-exhibitors obtain for themselves, prior to exhibiting their own products at the fair, information on the rules concerning the protection of industrial property, copyright, protection of competition and combating unfair competition. Moreover, it is recommended that exhibitors/co-exhibitors have at their disposal during the fair complete documentation confirming their right to use the subject of intellectual property rights used in connection with the participation in the fair, in particular in the goods or services of the exhibitor/co-exhibitor, being the subject of the exhibition and used in advertising and promotional materials, or in the decoration or construction of the stand. The documentation referred to in the preceding sentence may include in particular extracts from relevant registers of industrial property rights, documents confirming payment of periodical fees, documents confirming authorship or ownership of copyrights on other grounds, including agreements on the acquisition of such rights or licence agreements.
- 4.3. In the light of the provisions of the Act on the Protection of Industrial Property in force in Poland, it is possible to apply for exhibition priority to obtain the Polish protection rights for a utility model or a right

derived from industrial design registration. Exhibitions (fairs) organised by MTP having the privilege of priority are indicated by the President of the Polish Patent Office in due notice. MTP shall issue a certificate of presentation of the utility model or industrial design at the request of the exhibitor / co-exhibitor, taking into account the requirements concerning evidence of priority established by the President of the Patent Office. Exhibition priority may give rise to claims of priority only on Polish territory.

With regard to inventions or trademarks, there is only the possibility of applying for priority to obtain a patent or legal protection for the invention in the event of presenting the invention or trademarked goods or services at the official or officially recognised international exhibition within the meaning of the Convention relating to international exhibitions. Since the exhibitions (fairs) organised by MTP do not have such a character, in order to obtain legal protection it is recommended that inventions are notified to the patent office before their presentation at fairs.

- 4.4 MTP shall not be liable for damages resulting from violation of rights of exhibitors /co-exhibitors by other fair participants, in particular intellectual property rights or personal rights, as well as for damages resulting from acts of unfair competition committed to the detriment of the exhibitor/co-exhibitor by another fair participant. Neither shall MTP be liable for damages resulting from dispute rulings issued by an Expert on the basis of the provisions of the ADP Rules and Regulations.
- 4.5 In case of public presentation or public broadcasting of musical compositions or compositions involving lyrics and music, fair participants must undertake to obtain permission of the collective rights management organisations and pay the applicable royalties to such organisations, in accordance with the applicable laws and regulations.
- 4.6 At fairs where it is possible to issue a certificate referred to in point 4.3, MTP ensures that exhibitors / co-exhibitors shall have the opportunity to obtain during the fair detailed information on the protection of industrial property, copyright, protection of competition and unfair competition. For this purpose MTP shall establish an information point on the fairgrounds, where support is provided by patent attorneys or general information may be obtained, and those interested in obtaining help from a patent attorney are referred to the patent office cooperating with MTPs.
- 4.7. If during a fair referred to in point 1.4. the Exhibitor or a third party requests the another Exhibitor to resolve a dispute concerning the infringement of the rights referred to in Article 5 of the ADP Rules and Regulations, the Exhibitor, to whom the abovementioned request applies, shall be required to sign an ADP clause using the template enclosed as Appendix 1 to the ADP Rules and Regulations and submit it in the manner and within the time limit set out in the ADP Rules and Regulations. Failure to comply with this obligation shall entitle MTP to withdraw from the fair participation agreement concluded with the Exhibitor. MTP may submit a declaration of withdrawal from the fair participation agreement concluded with the Exhibitor not later than on the last day of the Fair as specified in the Specific Provisions. In such event, MTP may charge the Exhibitor with a contractual penalty equal to the fee specified in Article 23.7 of the ADP Rules and Regulations and retain all fees and remuneration charged for the above agreement. The provisions of the second sentence of point 4.9, and point 5.6. shall apply accordingly.
- 4.8 In the case of disputes referred to in point 4.7., the Exhibitor shall be required to keep confidential the very existence of proceedings under the ADP Rules and Regulations and any information related to such proceedings, including in particular the ruling, any actions, as well as documents submitted or disclosed in such proceedings, unless the parties to such proceedings have agreed otherwise, disclosure of information is a statutory obligation or imposed by a court or authorized body, or serves to protect rights, pursue claims or defend against civil, criminal or administrative liability before a common court of law, Supreme Court, arbitration court, administrative court or state body. In case of violation of the obligation specified in the preceding sentence, MTP may claim damages on general terms and conditions.

- 4.9. In a particularly justified case, where the fact that the Exhibitor infringes the intellectual property rights of another Exhibitor or a third party or commits an act of unfair competition to their detriment is beyond reasonable doubt in the light of the available, reliable information, MTP – and in the case of fairs referred to in point 1.4, an Expert – may:
- a) order the Exhibitor to remove the disputed exhibits from the stand or to conceal them;
 - b) order the Exhibitor to permanently close the stand;
- Should the Exhibitor fail to do the above, MTP will order the exhibits to be concealed or removed from the stand or the stand to be closed at the Exhibitor's cost and risk.
- 4.10. The Exhibitor guarantees that it is authorised to use the subject of intellectual property rights used in connection with the participation in the fair, in particular in the goods or services of the co-exhibitor or of the represented company, which are exhibited or used during the fair in advertising or promotional materials, or in the decoration or construction of the stand.

In the event that third parties submit any claims against MTP for infringement of any third party rights by the Exhibitor, including intellectual property rights and personal rights, or for an act of unfair competition committed by the Exhibitor, the Exhibitor undertakes to take, at its own cost and risk, all legal steps to ensure adequate indemnification of MTP against such third party claims, and in particular – if it is possible in the circumstances of a given case – join proceedings instead of or together with MTP, at MTP's choice. In such circumstances, the Exhibitor shall be required to cooperate with MTP in order to obtain a favourable decision, including in particular the dismissal of third party claims, or to obtain a decision to the same effect, and if that is not possible, to reduce their amount. If despite meeting the above conditions, in accordance with a final and binding decision of a competent court or arbitration court or an amicable settlement, MTP is required to pay any amounts to third parties or to incur any damage, the Exhibitor shall be required to reimburse MTP for any actual costs incurred and to compensate MTP for any damage related thereto, and in particular it will reimburse the equivalent of the claims covered by MTP, including claims for compensation or the relinquishment of obtained benefits, awarded fines, costs, etc., including legal costs and costs of court, administrative, arbitration proceedings, etc. (including the costs of legal representation in the amount of minimum fees for advocate's/legal adviser's services in accordance with the Regulation of the Minister of Justice applicable to given court proceedings).

- 4.11. If MTP orders the Exhibitor to permanently close the stand in accordance with point 4.9.(b). above or the obligation to permanently close the stand results from an expert's ruling issued pursuant to the ADP Rules and Regulations or if the Exhibitor violates the obligations arising from the ADP Rules and Regulations, in particular in a manner preventing proceedings specified in the ADP Rules and Regulations, MTP may withdraw from the fair participation agreement concluded with the Exhibitor not later than on the last day of the Fair as specified in the Specific Provisions. In such event, MTP shall have the right to retain all fees and remuneration charged under the agreement. The provisions of the second sentence of point 4.9., and clause 5.6., shall apply accordingly.

5. GENERAL REGULATIONS AND FIRE SAFETY RULES

- 5.1. Dates and hours for commencement of the fair, stand construction and dismantling periods and opening hours of halls and the fair grounds as well as the rules of entry and parking of vehicles are described in Specific Provisions. Staying on the MTP grounds beyond the dates and opening hours requires the consent of MTP. If staying and parking on the MTP grounds is justified because of the need for early assembly or later disassembly, the exhibitor shall be charged a special fee.
- 5.2. During the fair opening hours stands shall be available to visitors. Temporary closing of stands shall be subject to prior approval from MTP.
In justified cases (e.g. protection of a utility design from unfair competition) and with prior approval from MTP, an exhibitor may restrict access of general public to a part of the stand and allow entrance only to the holders of a relevant invitation. However, the exhibitor should secure stand personnel to provide visitors with appropriate information.

- 5.3. No offer of goods and services shall be exhibited or presented at a stand that is inconsistent with the thematic scope of a given fair event.

At MTP's request, a fair participant shall discontinue presentation of any such offer and shall at its own expense remove exhibits from the stand, failing which MTP shall have such exhibits removed from the stand or close the stand at the fair participant's risk and expense.

- 5.4. Participants may not display prices on exhibits or conduct retail sales from exhibition stands for the duration of the fair, unless the Specific Provisions state otherwise.

At MTP's request, a fair participant should at his own expense cease unauthorised display of prices or conduct of retail sales from exhibition stands, failing which MTP shall have such prices and goods removed from the stand or close the stand at the fair participant's risk and expense.

- 5.5. Maximum level of sound pressure at the stand, associated for example with performing or playing music during the fair, may not exceed 70 dB (noise reduction) except in the cases referred to in Item 5.7 below.

Loudspeaker columns shall not be directed towards passageways and the neighbouring stands.

At the request of MTP, fair participants shall reduce the noise to the required level and shall properly adjust the amplification system or other devices, failing which MTP shall discontinue power or compressed air supply to the stand or close the stand at the fair participant's risk and expense.

- 5.6. Stand closure by MTP in cases described in points 5.3-5.5 may be temporary in nature and continue until such time as MTP's instruction is complied with, or it may be permanent, i.e. it shall continue to the end of the fair.

Permanent stand closure shall be treated as a sanction for exhibitor's failure to perform under the participation agreement. In such a case, the exhibitor shall not be reimbursed for his registration fee or exhibition space provision, stand construction and other fair service fees. Moreover, the exhibitor concerned shall not be entitled to any compensation, with stand closure being a sanction for his default.

- 5.7. Reducing the noise level to 70 dB, as stipulated in Item 5.5, does not apply to the presentation at the fair, according to its "Thematic Scope", of machines, devices and tools in motion, and to the organization of fashion shows or other events with a music track after prior agreement with MTP.

- 5.8. Stands or other exhibition areas and passages in the halls as well as entrance doors to the halls may be temporarily closed by MTP for organisational or safety reasons, and at this time may not be available for the participants of the fair and/or visitors.

- 5.9. Cleaning the stands during the fair takes place before the opening or after the closing of the fair to the public, according to the principles set out in the "Specific Provisions" of a particular fair.

- 5.10. Fair participants (exhibitors and co-exhibitors) and stand constructors are required to:

- a) properly and carefully perform the assembly / dismantling of stands and exhibits (machinery, equipment, etc.), and present exhibits during the fair so as not to damage MTP's infrastructure or the stands and property of other participants of the fair;
- b) after assembly and before the commencement of the fair, remove from the stand and its immediate surroundings any packaging and waste left after furnishing the stand and arranging the exhibition space;
- c) after the end of the fair, remove exhibits from the stand, dismantle the stand structure and furnishings and restore the occupied exhibition space to the original condition no later than by the last day of the dismantling period.

The waste generated in connection with the stand assembly and during fair events should be disposed of into containers placed in front of the halls and labelled in accordance with the principle of selective waste collection applicable on the MTP grounds. Stand dismantling waste, including large-size waste should be disposed of into containers intended for this purpose. It is forbidden to dispose of waste

hazardous to human health and the environment on MTP's premises or in any other places of organisation of trade fairs by MTP. They must be disposed of by the exhibitor.

Participants (exhibitors) building their own stands or other exhibition areas and entities responsible for fitting out stands or exhibition areas on behalf of exhibitors shall be charged a waste removal fee by MTP. The amount of the said fee is fixed in the Terms of Participation.

- 5.11. Fair participants may not remove exhibits from stands or other exhibition space and dismantle stands or other types of space arrangement elements before the closing time, except where it is based on the Regulations or the ADP Rules and Regulations. Removal and dismantling may be commenced only after the fair grounds have been closed to visitors on the fair's last day.
- 5.12. Elements of the stand construction and equipment left in the stand or exhibition space and the surrounding area without notifying MTP and not removed by the participant (exhibitor / co-exhibitor) and stand constructor in the dismantling period, shall be deemed abandoned property with the intention of getting rid thereof, and MTP shall dispose of such property at its own discretion.
- 5.13. It is forbidden to leave unattended any items, including luggage or other property. Items left unattended outside the stand or other exhibition space on the MTP grounds or at any other place of organisation of trade fairs by MTP, during assembly, trade fairs and disassembly, may be removed or destroyed for security reasons by MTP or specialist services at the expense of the exhibitor / co-exhibitor / or other person who has left the items, unless that person cannot be identified. MTP shall not be held liable in this respect. If in connection with leaving any items unattended evacuation of people from the halls or the fairgrounds is required, the costs of the evacuation shall be charged people who left these items.
- 5.14.
